

Updated Instructions for DHEC 2617 (09/2007): Items IV.C.2 and IV.C.2.a-d

Please use the following instructions for item IV.C.2 and IV.C.2.a-d, instead of the instructions listed on DHEC 2617 (09/2007).

IV. Waterbody Information

C. Impaired Waterbodies

2. See the following website for a list of all WQMS with Approved S.C. Total Maximum Daily Loads (TMDLs): http://www.scdhec.gov/environment/water/tmdl/docs/tmdl_2008sites.pdf. To search this document to determine whether a WQMS is listed, select "Edit" from the top toolbar. Then, select "Find". Enter the WQMS exactly as listed on the map and hit enter. If none of the WQMS(s) are found, then select "No" for item IV.C.2 and proceed to item IV.D.1. If any of the WQMS(s) are found within the document, then select yes and proceed to item IV.C.2.a. The same document will be used for item IV.C.2.a.
 - a. List the cause(s) of the impairment (see 7th column labeled "CAUSE") and proceed to item IV.C.2.b. If the WQMS(s) is impaired for more than one parameter, then the WQMS will be listed multiple times on successive rows. The same document will be used to answer item IV.C.2.b.
 - b. See the 8th column labeled "USE SUPPORT" to determine if the standard has been attained for each impairment for each WQMS. "FULLY SUPPORTED" means the standard has been attained for the impairment listed in the "CAUSE" column. "NOT SUPPORTED" means that the standard has NOT been attained for that impairment. If the standard has NOT been attained for all impairments for all WQMS(s), then select no and proceed to item IV.C.2.c. If the standard has been attained for all impairments for all WQMS(s); select yes and proceed to item IV.D.
 - c. DHEC has determined that construction SW discharges are expected to contain pollutants causing the following impairments: TURBIDITY, BIO (Macroinvertebrate), TP (Total Phosphorus), and TN (Total Nitrogen). You should carefully evaluate whether the site's constructions SW discharges will contain any pollutants causing other impairments, not explicitly listed above. You should also consider previous land uses at the site in answering this question.
 - d. If the answer to this question is no, then the site is not eligible for coverage under the CGP.
